

State of Indiana

Congratulations! You now have the opportunity to enroll in comprehensive dental coverage through Delta Dental Plan of Indiana! You can choose from any of the following dental plan designs:

Plan Choices	Delta Traditional I	Delta Traditional II	DHMO
What is covered?	You will be covered by Delta Dental's DeltaPreferred Option USA Point-of-Service plan. This plan includes two of Delta Dental's networks for you to choose from, DeltaPreferred Option (a PPO network) and DeltaPremier. See below for a description of the services covered.	You will be covered by Delta Dental's DeltaPreferred Option USA plan. This plan requires you to use the DeltaPreferred Option network. See below for a description of the services covered.	You will be covered by the DeltaCare plan. This plan requires you to select a dentist from the DeltaCare network. See below for a description of the services covered.
Can I go to any dentist?	Yes, but you will save money if you choose a DeltaPreferred Option (DPO) dentist. DPO dentists agree to accept their fee or the amount in the Plan's DPO fee schedule, whichever is less. If you go to a non-DPO dentist, you may still save money if you choose a DeltaPremier dentist. DeltaPremier dentists agree to accept their fee or the Plan's customary fee, whichever is less. You'll have to pay the full bill if you choose a dentist who does not participate in either network.	No. You must choose a DeltaPreferred Option (DPO) dentist. Only a few services are covered when you go to a non-DPO dentist (see last page for a list).	No. You must choose a single DeltaCare dentist for your entire family from our DeltaCare dentist directory. Exceptions: 1. Emergency dental treatment to relieve pain when you are more than 50 miles from your DeltaCare dentist. 2. Out-of-network orthodontist when there is no DeltaCare orthodontist in your area.
Can I change dentists whenever I want to?	Yes	Yes, as long as you change to another DPO dentist.	No
Can each member of my family see a different dentist?	Yes	Yes, but the dentist must be in the DPO network.	No
Is there a deductible?	Yes. The deductible is \$50 per person per calendar year limited to \$150 per family. The deductible does not apply to Class I and Class IV Benefits. Any deductible applied in the last three months of a benefit year will also be applied to the deductible for the following benefit year.	Yes. The deductible is \$50 per person per calendar year limited to \$150 per family. The deductible does not apply to most Class I and Class IV Benefits. However, it does apply to sealants. The deductible applied in the last three months of a benefit year DOES NOT apply to the following benefit year.	No. However, there is a \$5 fee for each office visit.

	Delta Traditional I			Delta Traditional II		DHMO
What does the Plan pay?	DPO Dentist	DeltaPremier Dentist	Nonparticipating Dentist	DPO Dentist	Non-DPO Dentist	DeltaCare
CLASS I BENEFITS						
Diagnostic and preventive services – Used to diagnose and/or prevent dental abnormalities or disease (includes exams, cleanings and fluoride treatments).	80%	80%	80%	100% Fluoride is not covered	0%	No charge
Bitewing Radiographs – Bitewing X-rays.	80%	80%	80%	100%	0%	No charge
Emergency Palliative Treatment – Used to temporarily relieve pain.	80%	80%	80%	100%	0%	No charge
All Other Radiographs – All other X-rays, as required and in conjunction with the diagnosis of a specific condition requiring treatment.	80%	80%	80%	100%	0%	No charge
Sealants – Dental sealants to prevent decay of permanent molars.	80%	80%	80%	80%	0%	Fixed copay - See attached schedule
CLASS II BENEFITS						
Oral Surgery – Extractions and dental surgery, including preoperative and postoperative care.	80%	80%	80%	80%	0%	Fixed copay - See attached schedule
Simple Extractions	80%	80%	80%	100%	0%	Fixed copay - See attached schedule
Minor Restorative Services – Used to repair teeth damaged by disease or injury (for example fillings).	80%	80%	80%	80%	0%	Fixed copay - See attached schedule
Single Crowns – Used when teeth cannot be restored with a filling.	80%	80%	80%	80%	0%	Fixed copay - See attached schedule
Periodontics – Used to treat diseases of the gums and supporting structures of the teeth.	80%	80%	80%	80%	0%	Fixed copay - See attached schedule
Endodontics – Used to treat teeth with diseased or damaged nerves (for example, root canals).	80%	80%	80%	80%	0%	No charge
CLASS III BENEFITS						
Prosthodontics – Used to replace missing natural teeth (for example, bridges and dentures).	50%	50%	50%	50%	0%	Fixed copay - See attached schedule
Inlays, onlays and other major restorative services –Used when teeth cannot be restored with another filling material.	50%	50%	50%	50% Inlays are not covered	0%	Fixed copay - See attached schedule
CLASS IV BENEFITS						
Orthodontics – Used to correct malposed teeth and/or facial bones (for example, braces).	50%	50%	50%	50%	0%	Fixed copay - See attached schedule
What is the annual maximum?	\$750	\$750	\$750	\$1,000	\$1,000	\$1,000
What is the lifetime maximum for orthodontic coverage?	\$750	\$750	\$750	\$750	Not covered	\$750

	Delta Traditional I	Delta Traditional II	DHMO
How do I find a participating dentist?	Ask your dentist – he or she may already participate in our networks. You can also check our Web site at www.deltadental.com or call our Customer and Claims Services department or our automated DASI system at (800) 524-0149 to find a participating dentist near you.	Ask your dentist – he or she may participate in DeltaPreferred Option. You can also check our Web site at www.deltadental.com or call our Customer and Claims Services department or our automated DASI system at (800) 524-0149 to find a DPO dentist near you.	You can find a DeltaCare dentist by checking our DeltaCare dentist directory. You can also check our Web site at www.deltadentalin.com or call our Customer Service department at (800) 870-9988.
What if I go to a nonparticipating dentist?	You are still covered, but you may have to pay more. You will be responsible for any difference between the dentist's submitted fee and Delta Dental's payment.	You are covered for a limited number of specific services when you go to a non-DPO dentist. Most of these services will be rendered by specialists and will be payable up to the DPO fee schedule amount. You will be responsible for any difference between the fee charged by the non-DPO dentist and the DPO fee schedule amount, along with a deductible and copayment, if any. We have listed these services below:	You will be responsible for the entire cost of the services rendered if you go to another dentist without a written referral from your DeltaCare dentist.

- **Diagnostic** – 0140 limited oral evaluation – problem focused
- **Radiographs** – 0220 intraoral – periapical first film, 0230 intraoral – periapical each additional film
- **Endodontics** – 3330 root canal therapy – molar (excluding final restoration), 3346 retreatment of previous root canal therapy – anterior, 3347 retreatment of previous root canal therapy – bicuspid, 3348 retreatment of previous root canal therapy – molar, 3351 apexification/recalcification – initial visit, 3352 apexification/recalcification – interim medication replacement, 3353 apexification/recalcification – final visit, 3410 apicoectomy/periradicular surgery – anterior, 3421 apicoectomy/periradicular surgery – bicuspid (first root), 3425 apicoectomy/periradicular surgery – molar (first root), 3426 apicoectomy/periradicular surgery (each additional root), 3430 retrograde filling – per root, 3450 root amputation – per root
- **Periodontics** – 4210 gingivectomy or gingivoplasty – four or more contiguous teeth or bounded teeth spaces per quadrant, 4211 gingivectomy or gingivoplasty – one to three teeth, per quadrant, 4240 gingival flap procedure, including root planning – four or more contiguous teeth or bounded teeth spaces per quadrant, 4241 gingival flap procedure, including root planning – one to three teeth, per quadrant, 4260 osseous surgery (including flap entry and closure) – four or more contiguous teeth or bounded teeth spaces per quadrant, 4261 osseous surgery (including flap entry and closure) – one to three teeth, per quadrant, 4263 bone replacement graft – first site in quadrant, 4264 bone replacement graft – each additional site in quadrant, 4270 pedicle soft tissue graft procedure, and 4271 free soft tissue graft procedure (including donor site surgery)
- **Adjunctive general services** – 9110 palliative (emergency) treatment of dental pain.

State of Indiana Member Copayment Schedule
Annual maximum on all dental services is \$1,000.00.
Office visits are subject to a \$5.00 copayment

The services listed herein are payable only if covered under a group's contract and at the benefit level {percentage} selected by the group.

ORTHODONTICS

50% benefit to a lifetime maximum payment of \$750.00, which is separate from the annual \$1000.00 maximum for all other services.

50% Patient benefit is applicable towards consultations, records, fees, treatment and retention.

Orthodontic treatment to correct malocclusion is limited to one course of Phase II Permanent Dentition treatment and retention. This would include office records, comprehensive full banding and/or bonding of the permanent dentition, the initial retention appliances and office visits for retention. Total coverage period for treatment and retention will be a maximum of 24 months. There will be no benefits paid for treatment or retention beyond the 24-month period. Determination of such expense for treatment and retention will be the responsibility of the subscriber and the treating dentist.

The 24 month period shall be defined as that 24 month period commencing with the initial banding and/or bonding of the case, as reported by the treating dentist, and extending up and including that date 24 months later.

Covered services include but are not limited to cephalometric film, post treatment stabilization. Orthognathic surgery is excluded from this benefit.

Services covered within the 24-month period.

OUT OF AREA EMERGENCY TREATMENT

If outside the geographical area of the designated dental group office (more than a 50-mile radius), Eligible Enrollees will be directly reimbursed for emergency treatment to a maximum of \$50.00. Emergency treatment refers only to those dental services to alleviate pain and suffering.

ACCIDENTAL INJURY

There is no coverage for accidental injury. Accidental injury is defined as damage to the hard and soft tissues of the oral cavity resulting from force external to the mouth. Damages to the hard and soft tissues of the oral cavity from normal masticatory (chewing) function will be covered at the normal schedule of benefits.

STATE OF INDIANA DELTACARE EXCLUSIONS AND LIMITATIONS

LIMITATIONS

Prosthodontics (bridges, partial and full dentures)

A prosthodontic appliance will be provided only once in every four year period when determined by the dentist not to be functional or serviceable. Said four-year period will be measured from the date on which the existing appliance was last supplied. The term "existing" as used in this paragraph, is intended to include an appliance that was placed at the inception of the aforesaid four year period but which, for whatever reason, is no longer in the possession of the patient.

Fixed versus Removal Appliance: If there are multiple spaces in the same arch, the benefit calls for a removable appliance. If there are one or two missing teeth in the same arch which can be replaced using a maximum of 4 units (a combination of retainers, and pontics), the benefit calls for a fixed bridge. If more than 4 units are required, the benefit calls for a removable appliance.

If a copayment is not delineated in the Schedule of Benefits, recementation of inlays and/or crown and bridges initially placed by the participating dentist are at no charge to the patient and/or recementation of pre-existing inlays, crown and bridges not placed by the participating dentist, are at the participating doctor's fee for service.

Partial Dentures: If the benefit calls for a removable appliance and a satisfactory result can be achieved by a standard cast chrome and/or acrylic partial denture, but the patient and dentist select a more personalized appliance or one involving specialized techniques, the obligation of the plan will be only the benefits appropriate to those procedures necessary to eliminate oral disease and restore missing teeth. The balance of the cost will remain the responsibility of the patient.

Complete Dentures: If a satisfactory result can be achieved through the utilization of standard procedures and materials, however the patient and the dentist select a more personalized appliance or one involving specialized techniques, the obligation of the plan will be any of the benefits appropriate to those procedures necessary to eliminate oral disease and restore missing teeth.

The balance of the cost will remain the responsibility of the patient. If an immediate denture is the treatment of choice, the benefit applied will be that of the conventional denture. The difference in cost, including the first reline, will be the responsibility of the patient.

Overdenture: If an overdenture is the treatment of choice, it is covered up to the limits of a standard denture. All other related services or procedures are not covered and would be charged fee for service (such as root canal therapy, post and core, special attachments and/or impressions).

Temporary Full or Partial Dentures: If the patient elects the temporary appliance in lieu of the conventional prosthesis, the copayment applied is for that of the conventional prosthesis and the patient has exhausted the benefit for the four year period.

RESTORATIVE (silver or tooth colored fillings, inlays, porcelain, metal or porcelain to metal crowns)

Inlays, porcelain, metal or porcelain to metal crowns: If a tooth can be restored with amalgam or composite resins, these will be the materials used to restore the tooth. The judgment will be solely that of the dentist providing the service.

If tooth colored resins are used to restore posterior teeth, the benefit applied will be that of the silver amalgam restoration. The difference in cost will be the responsibility of the patient.

The general dentist provider covers a restoration for abrasion or erosion only when there is a clinical recommendation.

MOUTH REHABILITATION

If the patient and the dentist select a course of mouth rehabilitation, the obligation of the plan will be to apply coverage to those benefits appropriate to procedures necessary to eliminate oral disease and replace missing teeth. The balance of the treatment, including costs to increase vertical dimension or restore the occlusion, will remain the responsibility of the patient.

ORTHODONTICS (Limited to Phase II Permanent Dentition)

(Moving teeth to correct their position in existing bone and is applicable when orthodontic services are included on the Schedule of Benefits)

Orthodontics will only be provided when, in the opinion of the orthodontic consultant, a satisfactory result can be achieved.

Cross bite in permanent teeth will only be treated when, in the opinion of the orthodontic consultant, other conditions are present which would indicate that orthodontic treatment is necessary.

The Schedule of Benefits defines the maximum length of time the patient is covered for orthodontic care. Treatment which is extended due to the patient's failure to abide by the orthodontist's recommendations and/or keeping scheduled appointments shall be the patient's additional financial responsibility.

Space maintainers are covered when provided by the primary general dentist. When provided by an orthodontist, the patient is responsible for the full fee for service charge of the orthodontists.

When cosmetic procedures such as porcelain brackets and lingual appliances are the treatment of choice, the subscriber is responsible for the additional charges above the use of standard and/or brackets and facial appliances.

SPECIALTY REFERRALS

Specialty services will only be covered when there is an authorized (signed) referral made by the primary General Dentist.

DHMO EXCLUSIONS

- Services not appearing on the Schedule of benefits.
- Procedures, which were begun by another dentist prior to a member's eligibility to, receive benefits under this Contract.
- Prophylactic removal or impacted teeth (Asymptomatic non-pathological)
- Dental treatment for cosmetic purposes.
- Rebonding of Maryland bridge.
- Addition of a tooth or clasp to an existing partial denture. (Modification of an existing appliance)
- Procedures deemed experimental by prevailing dental standards.
- Treatment of congenital malformations, including but not limited to cleft palate, anodontia, and mandibular prognathism, and enamel hypoplasia in the absence of dental caries.
- Cases in which, in the professional judgment of the attending dentist, a satisfactory result cannot be obtained.
- Major restorative work caused by orthodontic treatment.
- The placement of bone grafts or extra-oral substances in the treatment of periodontal disorders.
- Dental implants, transplants or augmentation and any diagnostic or definitive treatment related to implants, transplants or augmentations.

DHMO EXCLUSIONS, continued

- Crown lengthening procedures.
- Tissue conditioning procedures.
- Second opinions.
- Accidental injury except as provided under palliative emergency treatment.
- Periodontal maintenance procedures more than eight weeks postoperative from the surgery date other than with the general dentist provider.
- Dental services secured from any dental office other than the participating dental office selected by the subscriber, unless expressly authorized in writing by the Dental Office or as cited under "Out of Area Emergency Treatment"
- Treatment for any condition for which benefits could be recovered under any Worker's Compensation or Occupational Disease Law, even if no claim is made for such benefits.
- Diagnostic procedures for non-covered benefits.
- Splinting procedures.
- Procedures which cannot be performed by the general dentist provider due to management, medical or physical condition of the patient.
- Restorative procedures to replace and/or stabilize the loss of tooth structure from attrition.
- Treatment for any disease, condition or injuries sustained, as a result of war declared or undeclared, or if caused by atomic explosion whether or not the result of war.
- Treatment for which payment is made by any federal, state, county, municipal or other governmental agency including any foreign government.
- TMJ (Temporal Mandibular Joint) disorder or dysfunctions and related services.
- General anesthesia and IV sedation in the absence of documented medical need. "Allergy" to local anesthesia must be documented by a licensed medical allergist following testing procedures. If the patient elects general anesthesia or IV sedation in the absence of such documentation, necessitating referral to a dental office not affiliated with the Network or a dental office affiliated with the network but not responsible for providing the covered services of the Schedule of benefits, such service will not longer be covered.
- Precious and semiprecious metals.

ORTHODONTIC EXCLUSIONS

- Retreatment of prior orthodontic problem.
- Treatment of patients with severe medical disabilities which may prevent satisfactory orthodontic results.
- Replacement and/or repair of an appliance furnished to the patient which is lost or broke through no fault of the orthodontist.
- Orthognathic surgery (surgical orthodontics).
- Prophylactic removal of impacted teeth.
